

## Costco Wholesale Corporation Reports June Sales Results

July 7, 2005

ISSAQUAH, Wash.--(BUSINESS WIRE)--July 7, 2005--Costco Wholesale Corporation (Nasdaq: COST) today reported net sales of \$5.22 billion for the five weeks ended July 3, 2005, an increase of 12 percent from \$4.65 billion in the same five-week period of the prior fiscal year. This year's five-week period included 34 days of sales compared to 33 days for the comparable five-week period last year, reflecting the timing of the Fourth of July Holiday. This calendar shift positively impacted reported net sales and comparable sales by approximately 2-3 percent.

For the first 44 weeks of its 2005 fiscal year ended July 3, 2005, the Company reported net sales of \$43.76 billion, an increase of 10 percent from \$39.80 billion during the similar 44-week period of the prior fiscal year.

Comparable sales for the 5-week and 44-week periods ended July 3, 2005, were as follows:

	5 Weeks	44 Weeks
US	8%	6%
International	14%	11%
Total Company	9%	7%

Reported net sales were reduced by the implementation of Emerging Issues Task Force Issue No. 03-10 ("EITF 03-10"), "Application of Issue No. 02-16 by Resellers to Sales Incentives Offered to Consumers by Manufacturers," which was effective at the beginning of the Company's fiscal 2004 third quarter, February 16, 2004. Sales for the 5-week reporting periods are on a comparable after-coupon basis; however, had sales for the 44-week year-to-date period last year been reported under EITF 03-10, the total Company reported net sales increase and the total Company comparable sales increase would have been 10 percent and 8 percent, respectively.

Additional discussion of these sales results is available on a pre-recorded telephone message. You can access the recording by dialing 1-800-642-1687 (conference ID# 5076008). This recorded message will be available today through 5:00 PM (PDT) on Friday, July 8, 2005.
