November 8, 2007

ISSAQUAH, WA, Nov 08, 2007 (MARKET WIRE via COMTEX News Network) -- Costco Wholesale Corporation ("Costco") (NASDAQ: COST) today reported net sales of \$5.21 billion for the month of October, the four weeks ended November 4, 2007, an increase of 13 percent from \$4.63 billion in the same four-week period last year.

For the first nine weeks of its reporting period ended November 4, 2007, the Company reported net sales of \$11.26 billion, an increase of 11 percent from \$10.16 billion during the similar nine-week period of the prior year.

Comparable sales for the four-week and nine-week periods ended November 4, 2007, were as follows:

	4 Weeks	9 Weeks
US	7%	5%
International	17%	14%
Total Company	9%	7%

The U.S. comparable sales figure includes the effect of recent gasoline price inflation, with the average sales price per gallon of gasoline up 25% year-over-year for the month of October. Excluding gasoline price inflation, U.S. comparable sales in October would have been 5%. In addition, significantly stronger foreign exchange rates, particularly in Canada and the U.K., positively impacted October's international comparable sales results. Excluding this effect, international comparable sales increased 4% in October.
